

Enterprise Cyber Risk Management (ECRM)

Turn Cybersecurity Complexity Into *Clarity*

You're Drowning in Complexity But
Still Can't See the Risk

Despite investing heavily in cybersecurity frameworks like **HIPAA, 405(d), NIST CSF 2.0, and the HHS Cybersecurity Performance Goals**, most organizations still face:

Overlapping
assessments

Vague
Maturity Scores

Limited Visibility
into Asset-Level
Risk

Meanwhile, threats evolve. Without a clear view, **it's impossible to:**

 **Prioritize
effectively**

 **Track
progress**

 **Satisfy OCR
expectations**

 **Communicate
risk clearly**

One engagement. Actionable insight.

Clearwater's Enterprise Cyber Risk Management (ECRM) solution unites OCR-Quality® Risk Analysis with expert-led NIST CSF 2.0 maturity assessment—giving you a clear, prioritized view of where risk truly lives.

The result? A defensible roadmap to reduce cyber exposure, satisfy regulatory requirements, and lead confident conversations with your board.

“

Based on all I've seen over the years, Clearwater's risk analysis methodology and software are in the best-of-breed tier and can be seriously considered by any organization striving to meet regulatory requirements in performing HIPAA Risk Analysis.

— Leon Rodriguez, Partner, Seyfarth Shaw LLP and former Director HHS Office for Civil Rights

One Tech-Enabled Engagement. Actionable Insight.

Clearwater's ECRM streamlines your strategy through a single process—powered by IRM|Pro® and guided by expert consultants.

■ OCR-Quality® risk analysis at the asset, system, and component level	■ Cross-framework mapping to HIPAA, 405(d), and HHS goals
■ NIST CSF 2.0-aligned maturity scoring	■ Benchmarking via healthcare's most comprehensive cyber risk dataset
■ OCR-ready risk register and board briefings	■ Strategic insight for board, investor, and auditor conversations

Benchmark Your Program. Lead with Confidence.

ECRM empowers leadership with dynamic tools for benchmarking and peer comparison.

What You Can Do	Who It Helps
Compare maturity across domains	◆ CISOs – Prioritization
Share data-driven insights with leadership	◆ Executives – Strategy
Prioritize based on risk tolerance	◆ Boards – Oversight
Set regulatory-aligned goals	◆ Auditors – Compliance

Why Clearwater

Enterprise Cyber Risk Management.
Built for Healthcare.

Clearwater combines expert guidance with powerful tools—delivering not just insight, but direction.
